

Information and support for children and young people

Mental health is all the things which go on within your mind such as your thoughts and feelings. Everybody has mental health.

You can have both good and bad mental health which can change day to day and at different times in your life. Sometimes though, you might decide that you need some help with what's going on in your head. This guide has been created to help you to know where you can go and who you can speak to.

Parents, carers, families and friends can also use this guide to look out for children and young people close to them and help them get the right support and advice.

-  **Self care** – things you can do to help look after your own mental health, emotions and wellbeing
-  **Talk to someone** – there's lots of people who you can talk to
-  **Family help and support** – information and help for all the family
-  **Doctor or nurse** – your GP practice can put you in touch with mental health services or talk to you about medication
-  **Child and adolescent mental health services (CAMHS)** – CAMHS help with specialist mental health concerns
-  **Crisis or emergencies** – it's important you know what to do in an emergency or crisis situation.
